Notice of Fee Increase on October 1, 2004

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2004, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" because some fees will increase effective October 1, 2004. See Revision of Patent Fees for Fiscal Year 2005; Final Rule, 69 Fed. Reg. 52604, 52606 (May 10, 2004).

The current fee schedule is accessible from WEB site (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2004 (or mailed with a certificate of mailing on or after October 1, 2004), the issue fee paid should be the fee that is required at the time the fee is paid. See Manual of Patent Examining Procedure (MPEP), Section 1306 (Eighth Edition, Rev. 2, May 2004). If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See MPEP Section 1308.01.

Effective October 1, 2004, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$685.00
 - By other than a small entity..... \$1,370.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$245.00
 - By other than a small entity..... \$490.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$330.00
 - By other than a small entity..... \$660.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The combination of features in the independent claims was not found in the prior art. The prior art comprised storing packed data operands in memory including storing two packed data operands in a single memory location; the prior art also taught operations on the packed data operands including operations on one packed data operand stored in one half of a memory location with another value and storing two packed data operands in one memory location into two separate memory locations for processing. The prior art also taught placing predetermined ones or zeros in a portion of a memory location containing a packed data operand in the another portion (the other half) of the same memory location. The claims that have been previously allowed, even with the current amendment these claims are still allowable. As to the new claims, however, the new claims also contain combinations that were not found in the prior art. The new claims include a combination with an instruction that specifies the locations of first packed data operand and second packed data operand and performing operation on the corresponding elements of the packed data operands and forming a packed data result; and an execution unit or processor or executing the instruction. The new claims also include the combination of an instruction that specifies the location of first and second packed operands and accessing the full width operands and dividing the first full width packed operand into first and second portion and the second full width packed data operand into third and fourth portions and determining a partial result of performing an operation on the first and third portions and determining a partial result of processing

Art Unit: 2183

the second and fourth portions. The new claims also include the combination of receiving an instruction specifying a first packed data operand and a second packed data operand, the instruction specifying an operation to be performed on only a subset of corresponding pairs of data elements of the first and second packed data operands converting the instruction into one or more micro instructions including a first microinstruction receiving only a portion of the first and second packed data operands using the first microinstruction and generating a result by processing a portion of the first and second packed data operands providing the result to a destination specified in the instruction. The above combinations were claimed in varying levels of specificity however each new independent claim contains at least one of the above combinations that was not found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
